

John Jelonnek received the Dipl.-Ing. and Dr.-Ing. degrees in electrical engineering from Hamburg University of Technology (TUHH), Germany, in 1991 and 2000, respectively. At TUHH he developed rigorous self-consistent analyses for gyrotron oscillators with particular focus on rigorous time-domain simulation at mismatched conditions and injection locking. From 1997 to 2011, John Jelonnek was working in several different positions in industry. Since 2011, John Jelonnek heads the Institute for Pulsed Power and Microwave Technology (IHM) at Karlsruhe Institute of Technology (KIT), Germany. Related to microwave technology, the research of high-power microwave sources, with particular focus on megawatt-class gyrotrons, and the application of microwaves to energy efficient industrial processes using dielectric heating and microwave plasmas are in the focus. John Jelonnek is a Professor for high-power microwave technology at KIT.
